- System Rollback—rolls back your PC system settings to a better point in time while keeping data current
- Automatic Synchronization of data between two or more computers
- Soft-touch over-mold enables stable grip for transport

BACKUP AND STORAGE MADE SIMPLE FOR WINDOWS® USERS

Your digital data—photos, videos, email, documents, and music—is precious to you. Everyone knows the most effective way to safeguard your files is to back up your computer, but some may fear it will be a long, complicated process. But it's not! The Maxtor OneTouch III solution gives you a simple, reliable, and automated backup system that can be managed with a touch of a button.

Backup, Store, Protect, Simple

This handsome unit plugs into your personal computer via a USB port. Simply plug in the drive and the Maxtor OneTouch III appears on your desktop. Easy to use installation and backup software will have you up and running in minutes. Designed based on customer feedback to fit into your daily lifestyle, the Maxtor OneTouch III solution travels easily between your laptop, home, and work systems and looks good in any setting.

With up to 500GB of storage you will have plenty of space to hold your largest files—over* 36 hours of DV video, 384,000 digital photos (JPEG-normal), or 8,300 hours of high quality digital music (MP3). You can easily set the Maxtor OneTouch III solution to back up your data automatically, or at the touch of a button. And for those who need it, the Maxtor OneTouch III solution also lets you effortlessly synchronize files between your home and workplace computers on the same operating system.

For added security, the Maxtor OneTouch III solution includes both the Maxtor DriveLock™ and System Rollback features. With Maxtor DriveLock you can password-protect the contents of the drive in case of loss or unauthorized use. The System Rollback feature rolls back your system to a better point in time, such as before a virus attack, while keeping your data current.

The Maxtor OneTouch III solution with USB 2.0 is ideal for anyone when:

- You need a simple, reliable, and automated backup solution
- You need additional storage space
- You want synchronization between two or more computers
- You demand enhanced protection for your data

The Maxtor OneTouch III solution with USB 2.0—there's no better way to add simple backup and additional storage capacity to your computer.
